

2nd International Symposium on Qualitative Research

The Organizing Committee invites the community to submit proposals to the **2nd International Symposium on Qualitative Research** and **6th Ibero-American Congress on Qualitative Research** to be held in **Salamanca (Spain)**, on days 12, 13 and 14 July 2017. For information and registration see: www.ciaiq.org

Authors may submit proposals for presentation of papers that meet the goals and themes of the Congress, including original scientific articles addressing revisions to the state of the art research and new perspectives, solutions and / or applications to real problems, empirical and / or evaluation, among others.

Application Fields of ISQR:

1. Qualitative Research in **Health** (emphasis on the processes of research in the fields of Medicine, Nursing, Geriatrics, Gerontology, Psychology, etc.).
2. Qualitative Research in **Education** (emphasis on the processes of research in various areas of Higher Education, Basic Education, Assessment, Curriculum, Teaching, Teaching Science, Languages, History, Technology, etc.).
3. Qualitative Research in **Social Sciences** (emphasis on the processes of research in the fields of Linguistics, Sociology, Anthropology, Business Administration, Marketing, Management and Economics, etc.)
4. Qualitative Research in **Engineering and Technology** (emphasis on the research processes in the areas of Computer Science, Information Systems, Electrical Engineering, Software Engineering and Engineering Education)

ISQR Themes:

A) Fundamentals

1. Rationale and Paradigms of Qualitative Research (theoretical studies, critical reflection about epistemological dimensions, ontological and axiological)
2. Systematization of approaches with Qualitative Studies (literature review, integrating results, aggregation studies, meta-analysis, meta-analysis of qualitative meta-synthesis, meta-ethnography)
3. Qualitative and Mixed Methods Research (emphasis in research processes that build on mixed methodologies but with priority to qualitative approaches)

B) Operationalizing

1. Data Analysis Types (content analysis, discourse analysis, thematic analysis, narrative analysis, etc.)
2. Innovative processes of Qualitative Data Analysis (design analysis, articulation and triangulation of different sources of data – images, audio, video)
3. Qualitative Research in Web Context (eResearch, virtual ethnography, interaction analysis, latent corpus on the internet, etc.)
4. Qualitative Analysis with Support of Specific Software (usability studies, user experience, the impact of software on the quality of research and analysis)

IMPORTANT DATES

Paper submission: March 5, 2017

Notification of acceptance: April 23, 2017

Submission of accepted papers: May 7, 2017

Submission of video: May 28, 2017

Payment of registration, to ensure the inclusion of an accepted paper in the conference proceedings: May 7, 2017
